Albert E. Whiteman Area Manager DOE, RFAO

ENVIRONMENTAL ASSESSMENT REPORT FOR HIGH PRIORITY SITES (881 HILLSIDE)

Attached are two copies of the subject document, and a DRAFT Finding Of No Significant Impact (FONSI) for the proposed action.

The Environmental Assessment (EA) addresses the interim remedial action under CERCLA. In order to maintain the document's level of detail and quality, some assumptions on the design of the water treatment for inorganics were made. As the conceptual design proceeds, minor changes to the EA may be needed. However, no changes to the risk analysis or environmental effects analysis are expected. Two rounds of RFAO comments have also been addressed.

In order to expedite remedial action, we feel that submittal to ALO and Headquarters is appropriate, accompanied by aggressive pursuit of a FONSI. Please direct any further questions to Laura Frick of the RCRA/CERCLA Program on extension 4643.

Dominick Sanchini
